Sexual Disorders:
Latest Research and Effective Treatment

SSTAR Annual Meeting in Chicago
March 13 -16, 2008
Chicago, Illinois

This conference is open to all professionals interested in the topic of sexuality. Attendees need not be SSTAR members or specialists in sexual health. Continuing education credits will be offered.

The 2008 SSTAR Annual Meeting will be held from March 13-16 at the Intercontinental Hotel, a beautiful historic building in the heart of the cultural and shopping center of the city. For St. Patrick's Day, you will even get to see the Chicago River turn green!

Program Highlights

- Full-day workshop:
Sexuality in Clinical Practice for Health Professionals
- Half-day workshops on:
 - o Medical and Psychological Aspects of Dyspareunia
 - o Sexuality and Culture in Couple Therapy
- Poster sessions of current research on sexual disorders
- Talks by experts in sexuality on topics including:
 - o Sexual technologies
 - o Sexual problems in older women
 - o Sexual pain disorders
 - o Women's sexual arousal
 - o Medical treatment of sexual dysfunctions

In addition to the exciting scientific program, the conference will offer many opportunities to spend time with colleagues and sample the tremendous variety Chicago has to offer. The meeting includes a reception, film screening and discussion, fellowship dinners, and a private tour of the Art Institute.

Program and registration information will be available at www.sstarnet.org in October 2007.
